

2.1 ROBOSHOT Modularization / Small footprint

TYPE : D2 (Injection Insert)

HHO Smart
Helping Human Opportunity™

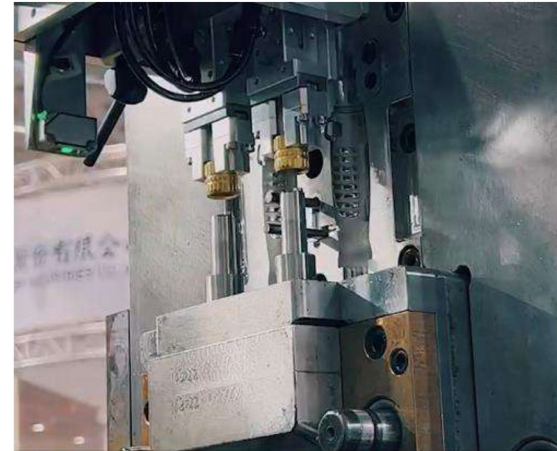

TYPE : D2 (*Injection Insert*)

2.1 ROBOSHOT Modularization / Small footprint

TYPE : D2 (*Injection Insert*)

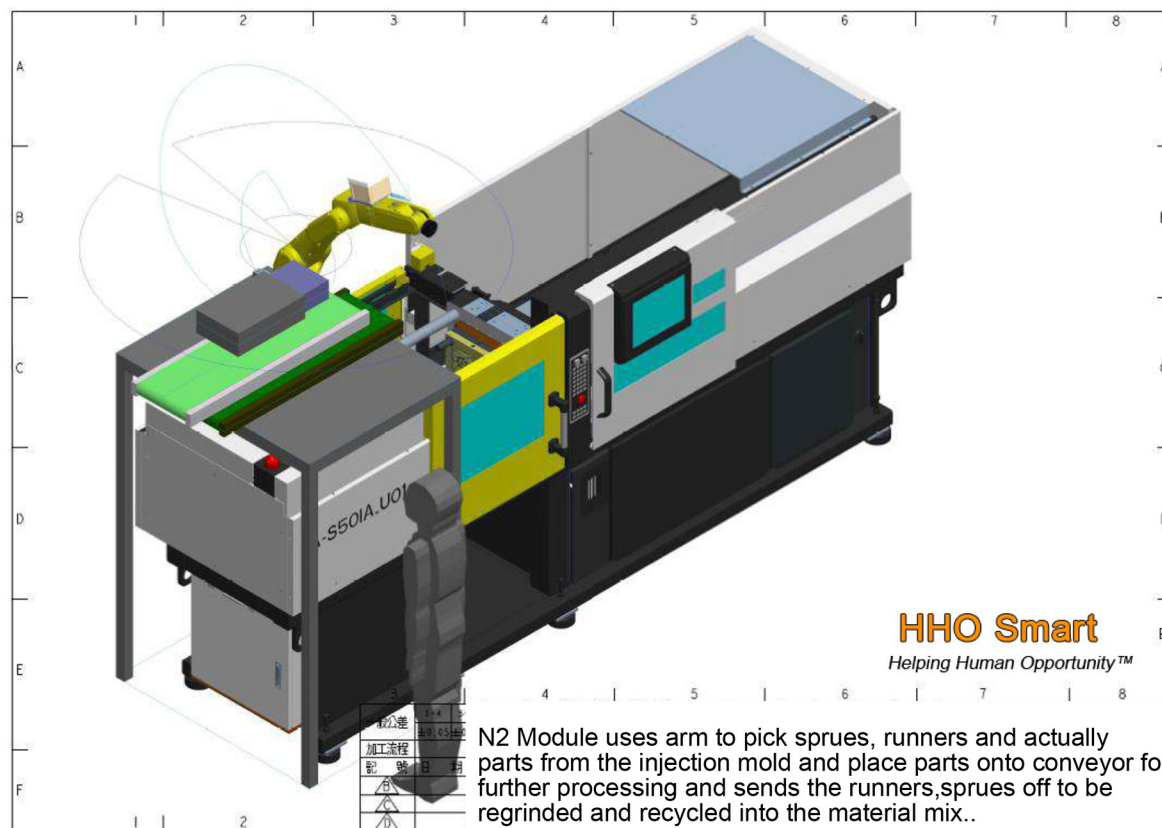

D2 Module Designed To Pick Metal Insert From CNC and Insert it into Injection Mold. D2 then picks overmolded insert.

HHO Smart
Helping Human Opportunity™

2.2 ROBOSHOT Modularization / Small footprint

TYPE : N2

N2 Module uses arm to pick sprues, runners and actually parts from the injection mold and place parts onto conveyor for further processing and sends the runners, sprues off to be reground and recycled into the material mix..

2.2 ROBOSHOT Modularization / Small footprint

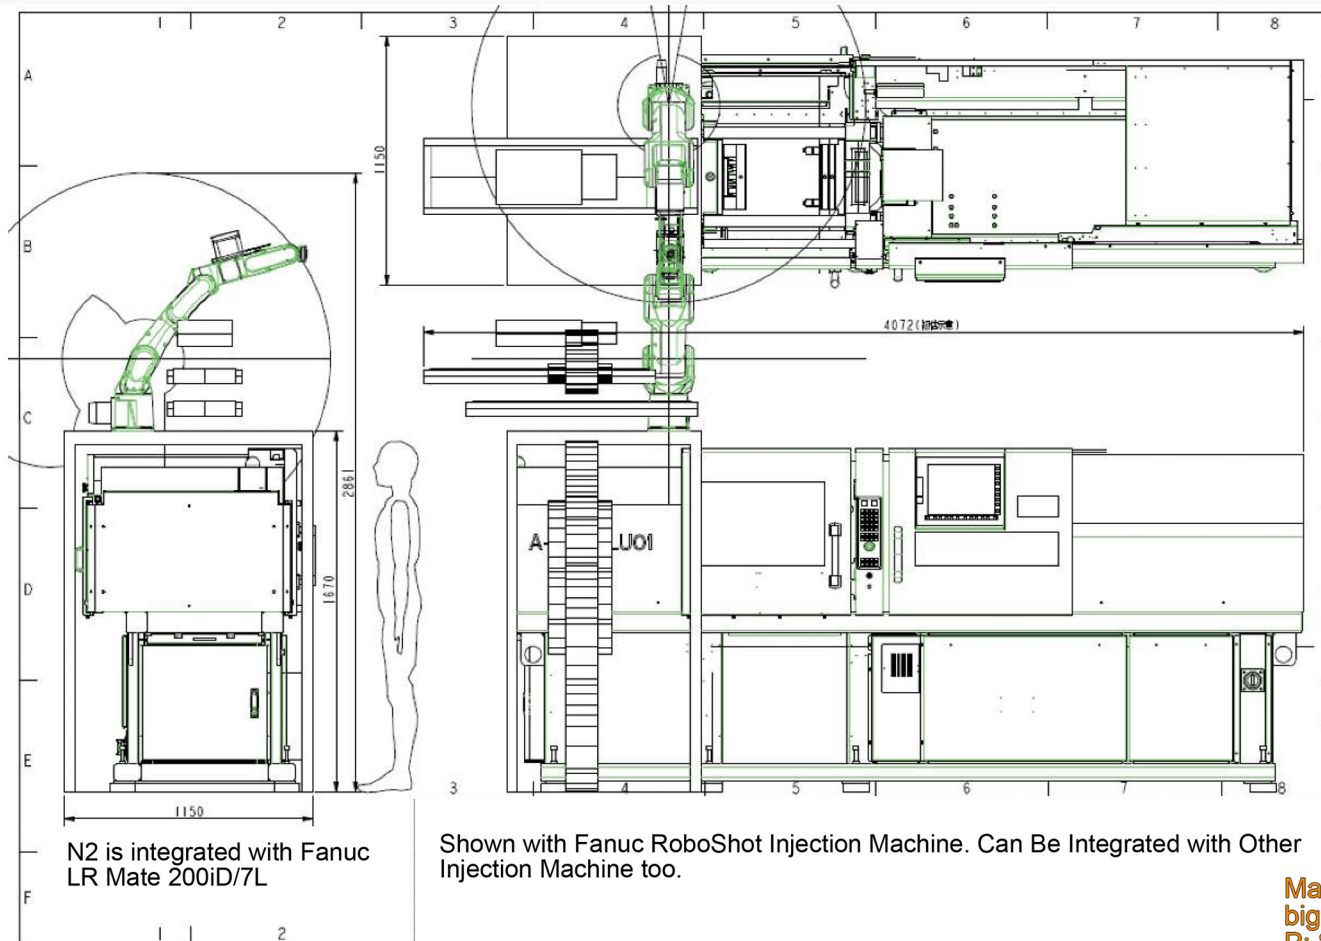

TYPE : N2
